ION

Balustrades & Handrails

FOR THE CONSTRUCTION INDUSTRY

What we do

Specialists in the design, manufacture and installation of balustrade and handrails for large-scale construction projects, working with main contractors and developers on high profile projects across England.

We consistently meet our clients agreed installation dates with a flexible approach to accommodate variable programmes.

Our innovative, modular balustrade and handrail systems are available with short lead times and are specifically designed to reduce interaction with surrounding trades. This ensures rapid, hassle-free installation.

Close collaboration on-site and a proactive approach ensures that we are committed to a snag-free project handover.

Testimonial

“

BA Systems provided us excellent design support from an early stage and helped us overcome a number of challenges on this project.

The final project looks great and perfectly complements the high level of finish throughout the building.

”

Ciaran Tiffney | Project Manager
