ANTHOLOGY DEPTFORD FOUNDRY

The British standard...

Market-leading products; fabricated from **stainless steel**, extruded **aluminium** and **Vetobac[®]** anti-microbial material **in the UK**. We're proud to offer **guaranteed timeline** assurance and **unsurpassed quality**.

We provide certainty in an ever-changing world, certainty based on innovation and experience, a programme of continuous development ensures our range of products and services are always compliant with the latest legislation and building requirements.

Our innovative, modular balustrade and handrail systems are available with short lead times and are specifically designed to reduce interaction with surrounding trades. This ensures rapid, hassle-free installation.

The key to project success

See how it's done in our videos

[▶ OUR PROCESS](#)

STAGE ONE

Concept Design

Develop and agree on a cost-effective and practical design.

STAGE TWO

Post-Order Prototypes

Prototypes and samples for inspection and client review.

STAGE THREE

Detailed Design

Production of final manufacture drawings based on site survey.

STAGE FOUR

Production Planning

Material preparation can begin, ready for manufacture.

STAGE FIVE

Fabrication

Manufacture slots according to our Microsoft Dynamics ERP.

STAGE SIX

Assembly

After finishing/painting, parts are assembled ready for delivery.

STAGE SEVEN

Delivery

Checked-off on arrival, ready for a quick and simple installation.

A trusted partner

We're proud to have **successfully completed thousands of projects**, working alongside national construction companies, such as:

Specifier tools are available on our website

Responsible manufacturing

ENVIRONMENTAL STANDARDS

We are **committed to ensuring all our processes**, from our manufacturing facilities through to the delivery of goods **are aligned with strict environmental standards.**

Our environmental commitment is illustrated through three key practices:

Recycling Raw Materials

Our biggest reduction of environmental impact is our pledge to **recycle 100%** of Glass, Plastic, Aluminium and Cardboard waste from our on-site installations and at our manufacturing facilities.

Reducing Packaging

To support the reduction of plastic we utilise recyclable cardboard for packaging. We are committed to sourcing plastic alternatives, such as biodegradable foam in an effort to become 100% plastic-free.

Environmental Audits

Annual audits ensure that our environmental standards are upheld. ISO 1400 assesses our current processes and advises on any areas for improvement to reduce our environmental impact.

B10

HANDRAILS

Wall mounted handrails, designed to coordinate with our balustrade systems.

B20

POST & INFILL

Highly versatile stair and balcony handrail system, with many finishes & infill options.

B30

FRAME & INFILL PANEL

Innovative framed balcony and interfacing system, with concealed fixing.

B40

FRAMELESS GLASS

Enjoy uninterrupted views with this minimalist, all glass solution.

B50

VERTICAL BAR

Highly versatile stair and balcony handrail system, with many finishes and infill options.

Hygienic metal surfaces

VBA99 antimicrobial metal **kills 99.9% of bacteria and viruses.**

Public perception **of touch surfaces** have changed...

We felt compelled to do more to help and so we developed Vetobac®, a specially formulated copper metal alloy which works 24/7, between touches and cleaning sessions to rapidly kill the pathogens.

The antimicrobial properties of Vetobac® kill a wide range of bacteria and viruses including Coronavirus, MRSA, Norovirus and E. coli.

VETOBAC® APPLICATIONS

Watch the **BBC** documentary online

 **VETOBAC® IN ACTION**

Kills COVID-19 in minutes

Independent lab testing has proven VBA99 to kill 95% of Covid-19 within 10 minutes of contamination, completely within 1h.

Tarnish Free Copper Blend

VBA99 maintains its lightly brushed, pristine finish and does not oxidise or discolour like copper or brass does.

Lifetime protection without coating

Unlike plated or coated finishes VBA99 is a copper-based metal material. There's no surface coating to wear-off!

Industry feedback

“

BA Systems provided us **excellent design support** from an early stage and helped us **overcome a number of challenges on this project.**

The final project looks great and perfectly complements the **high level of finish** throughout the building.”

Ciaran Tiffney | Project Manager
